

- **App Name:** Lumen AI
- **App Description:** Lumen AI is an intelligent reading companion that helps students understand text in real time by asking adaptive comprehension questions and providing instant, level-appropriate explanations. It bridges the gap between reading and understanding by giving teachers and parents live insights into student comprehension as they read.
- **UN SDGs:** UN SDG 4 – Quality Education (Goal 4), UN SDG 10 – Reduced Inequalities (Goal 10)
- **Category:** Youth Individual
